

PROJECT NAME: Science Education Innovation and Reform

RECIPIENT: Weber State University

LOCATION: Ogden, Utah

PURPOSE: Weber State University's College of Science is uniquely oriented towards effecting positive change in science education at multiple levels. By incorporating research expertise in science education, a strong record for education outreach, and a dedication to training science teachers at all levels, the program addresses key needs. Funding would be used to bring together scholars and teachers to plan new ventures and develop reforms for science education at multiple sites across the country.

AMOUNT: \$1,100,000
